Tudor Lodge

TIMES

A MESSAGE FROM US

While our residents have been enjoying the warm weather, we've been busy behind the scenes making sure our displays are up to scratch and our technology's on the bleeding edge - take a look inside to find out more!

IN THIS ISSUE:

- Portraits,
- Days Out,
- Innovation

...and so much more!

New, fresh labels for all the team at Tudor Lodge - in Sai Care pink!

Phone cameras are used to take pictures of your salad for Instagram - we love a proper camera!

Our 'meet the team' board is a great way for residents, visitors & new staff members to recognise & put names to everyone in our home.

However, the board's been needing some TLC - Tudor loving care!

We've been busy giving the board a fresh new look, with new, clearer labels and professionally captured portraits of all our staff members - why not take a look at the process?

From digital to physical - all of the portraits (and a past one of John!) in passport photo size!

Award Nominations!

We can't wait to see who from Team Tudor wins an award in September!

You may or may not know that Tudor Lodge is part of the Kent Integrated Care Alliance (KICA for short), an independent body who supports care providers and organises the Kent Care Awards!

This year's Kent Care Awards are on September 5th - until then, we've dug out some photos from previous years - head office apologies in advance to anyone featured 😊

Gowtham, who supplies our fruit & veg, won 2024's Nutrition Champion award!

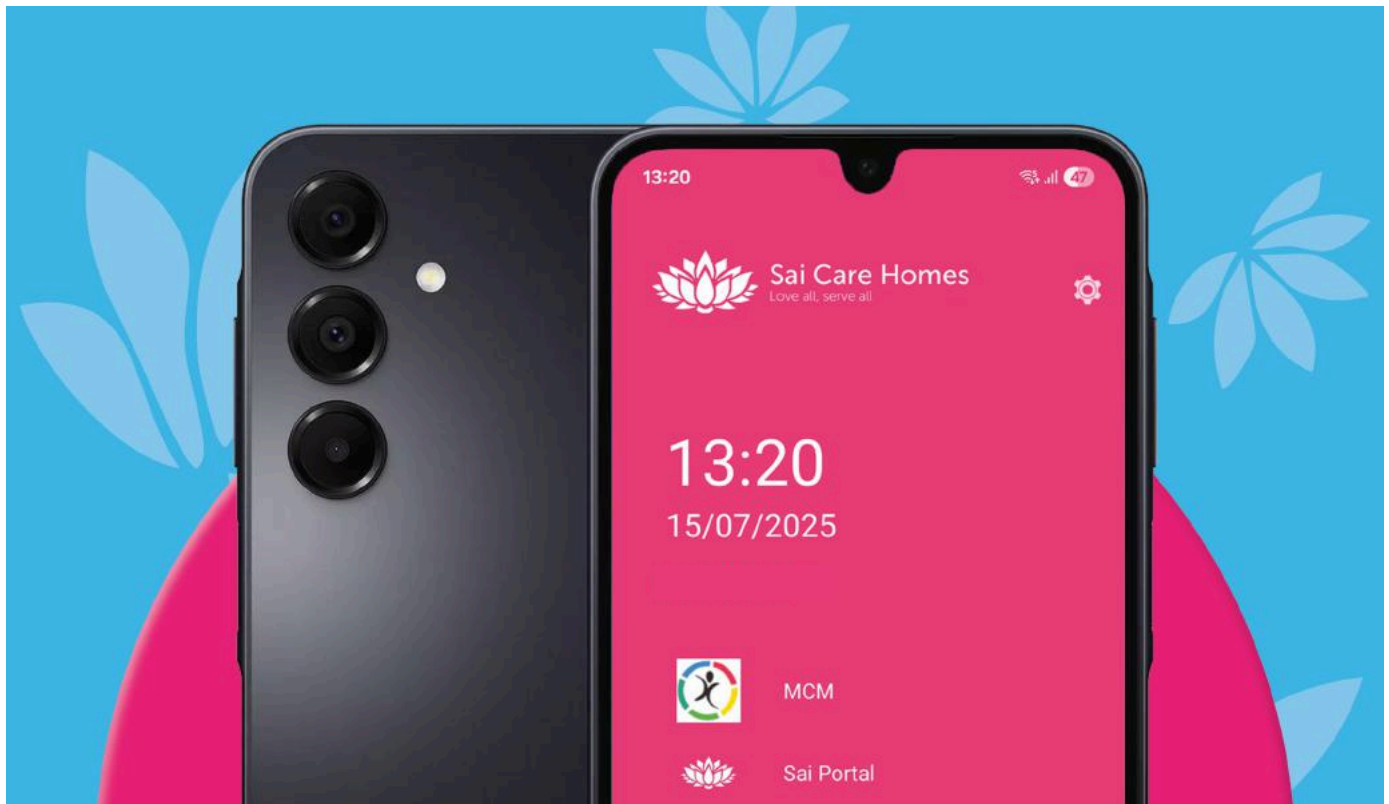

COVID meant no ceremony in 2020, but Sai Care Homes staff still got recognised!

Here's a throwback that's bound to get the newsletter editor in trouble - the Sai Care Homes team, circa 2019! Families of long-time residents might recognise Monika!

New Devices, Better Care

We've been busy deploying the latest and greatest Samsung devices, allowing our staff to get the important work done

We're excited to roll out our brand-new care delivery devices - designed to make life easier for our staff and even better for our residents.

With more devices to go around, our team can be quicker, more responsive, and

spend less time hunting for a free device - and more time focused on what matters most: delivering great care.

These new gadgets come with longer battery life, faster performance, and improved energy efficiency.
